23 Upwork portfolio entries + 4 original certificate images

A source-based portfolio catalogue | 24 October 2026

This catalogue preserves the portfolio descriptions from the owner's Upwork profile. Website concepts and demonstrations are presented as samples, not as proof of paid client contracts or measured business results. Original design exports and article attachments are not reproduced here unless explicitly shown.

Services & source

Monthly SEO content

Starter: 4 articles/month - $680
Growth: 8 articles/month - $1,280
Articles are typically 1,000-1,500 words. One week per agreed batch. Website and KDP scopes are quoted separately.

Websites & book content

Responsive business websites, landing pages, ecommerce and SaaS layouts; website and product copy; Amazon KDP/book content support. AI-assisted workflow with editorial review.

Evidence

Original Upwork profile and portfolio

The authenticated Upwork source returned 23 portfolio entries and four certificates. No contract reviews were returned; no testimonials or ratings have been added. Certificate images are reproduced as supplied; the portfolio listing does not independently validate the issuing organisations.

02 / WEBSITE DESIGN

DocIQ - AI Document Intelligence Platform

DocIQ is an AI-powered document intelligence platform designed to help businesses analyze, extract, search, and manage documents efficiently.

Features include:
• AI document analysis
• OCR text extraction
• Smart document search
• Automated reporting
• Responsive mobile and desktop design
• Arabic and English interface

The platform was built as a modern SaaS-style web application focused on usability, performance, and professional UI/UX.

Role: Full-Stack Web Developer & AI Integration

03 / WEBSITE DESIGN

Luxury Fashion eCommerce Website Design

I designed and developed a luxury fashion eCommerce website concept for a modern boutique brand.

The project includes a premium homepage, elegant fashion categories, product cards, sale banners, shopping icons, wishlist and cart UI, and a responsive mobile layout.

The design focuses on clean typography, luxury spacing, high-quality product presentation, and a modern shopping experience suitable for fashion brands, boutiques, accessories stores, and online retail businesses.

Role: Front-End Web Designer & Developer

Source portfolio: Upwork

04 / WEBSITE DESIGN

Rank Lab - Free SEO Tools Website

I designed and developed Rank Lab, a modern SEO tools website that helps users analyze and improve their content and technical SEO.

The website includes a clean landing page, SEO dashboard preview, tool search, responsive navigation, and multiple free SEO tools such as Word Counter, Meta Description Checker, SEO Title Checker, Keyword Density, Robots.txt Generator, and Sitemap Generator.

The design focuses on a modern SaaS style, dark premium interface, mobile responsiveness, fast user experience, clear calls to action, and a no-signup workflow for instant results.

Role: Front-End Web Designer & Developer

05 / WEBSITE DESIGN

Website Design Portfolio

This portfolio showcases a collection of modern website design samples created for different business niches, including SaaS platforms, Shopify stores, real estate websites, SEO tools, fashion stores, and service-based business landing pages.

The designs focus on clean layouts, responsive structure, professional user interface, easy navigation, and clear call-to-action sections. These samples demonstrate my ability to create attractive and functional websites using modern AI-assisted tools such as ChatGPT, Claude, and web design platforms.

Role: AI Web Developer / UI Designer

06 / WEBSITE DESIGN

Modern AI-Powered SaaS Website Design

I designed and built a modern SaaS-style website using AI tools. The project includes a professional landing page, responsive layout, clean user interface, smooth visual design, and clear sections for services, features, and call-to-action buttons.

The goal of this project was to create a professional website that can help businesses present their services online in a modern and trustworthy way. I focused on clean design, mobile responsiveness, user experience, and a premium visual style.

Role: Web Designer and AI Website Builder

Source portfolio: Upwork

07 / WEBSITE DESIGN

Modern Restaurant Website Design

I designed a modern restaurant website with a bold red and yellow visual style, clean mobile-responsive layout, hero food section, menu button, delivery information, rating badges, and a professional user experience.

The website is suitable for restaurants, fast food brands, burger shops, and food delivery businesses.
