Product Information:

tennis balls are made of a hollow rubber core, covered in a wool or nylon shell which is known as the nap.

Dogs love to play with tennis balls.

Pain points

Dogs with powerful jaws like hers can easily break tennis balls in their mouths. This can lead to serious choking hazards.

Dogs dental wear and tears can happen.

Product Details:

White Shoes Artifact Travel Portable Disposable Sneakers Cleaning Wet Wipes

Feature:

- **FIX SHOE EMERGENCIES:** An easy way to get an instant shine and remove dust and dirt. No polish, brushes or cloths needed!
- Keep some in your desk at work for a quick shine before important meetings. Or carry some in your purse in case of scuffs
- **MAINTAINS SHOE HEALTH:** The convenient wipes help keep your shoes clean without darkening, or drying out the leather. No streaking either. You can use them on different leather colors, and they help clean the sides of the soles as well
- **INDIVIDUALLY SEALED FOR FRESHNESS:** While other wipes dry out quickly, and leave your shoes looking drab and dull - Fresh wipes are individually packaged to maintain their moisture levels. Great for traveling!
- **NOT JUST FOR SHOES:** Helps clean leather handbags, purses and briefcases as well
- **QUICK, EASY & DISPOSABLE:** Shining your shoes only takes a minute, requires no buffing and leaves no mess. Once you're done just throw the wipes away - it's that simple
