###

**Service Title:** A Compelling Legiit Service Description

**Subtitle:** Persuasive copywriting to convert visitors into orders

**Description:**

## Why should you invest in a compelling description?

First impressions, like your thumbnail, do matter. But your **prospects will decide** whether to place an order or not only **after having read your service description**.

If you tried to write your description on your own, and orders are not coming in, it's probably because:

1. You focused too much on your service and not on what your target audience values
2. You didn't know how to use proven, persuasive copywriting formulas and power words

Having a copywriter write your description **makes the difference** between a successful freelancing business and failure.

## Why my service?

Because this is the **all-encompassing service** that I offer to boost your sales through a persuasive description:

- **Up to 300 words / 1500 characters**, but custom length is available
- **Compelling copywriting formulas:** PAS, AIDA, and their derivatives
- **Multi-copy** available: I deliver different descriptions so you can **carry out A/B tests** to see which one is more effective
- **Content relevancy:** I research your target audience, market segment, and competitors before writing
- **Copy&paste readiness:** gold and platinum services come already formatted to **speed up your work**
- **Attention to details:** I also deliver service title, subtitle, meta title, and meta description as extra

***Go ahead, place your order, and start selling on Legiit***
