

# All-In-One Magical SEO Package Walkthrough

Link Building is about increasing the strength, juice, and potential of your inbound links. That's why it's essential to create a tiered link building for your site. Tiered Links can add value to your website.

**Tier 1 backlinks** consist of high-quality links that will point directly to your website. This will include high metrics sites and contextual backlinks.

**Tier 2 backlinks** are links that pass additional link juice through tier 1, making those backlinks even stronger.

Most of the time, direct backlinks to your site can take a while to get results. But, when you strengthen those backlinks, you will see an improvement in your rankings.

**We will follow the below process in order to rank your site on Google.**

**Step 1** - We will write and post an original 500+ words article on high DA Sites. These will be your Tier 1 Backlinks which will point directly to your website.

**Step 2** - All created backlinks will be sent to indexers in drip mode. It may take 7-30 days to get the links indexed (After Delivery). By following this “tortoise” approach, the link building strategy becomes more safe and natural in google’s eyes.

**Step 3** - We will create Tier 2 Backlinks by linking to Tier 1 Sites. This will Power up your Tier 1 properties. Most of the links created here will be from varied sources.

The final report will contain three separate files.

**File 1**- It will contain tier 1 links. In this file you will get the post in web 2.0 blogs, wiki and pdf sites. Each url has a high-quality original post, and in each post you will have a link pointed directly to your website.

**File 2** -It will contain tier 2 links from varied sources. The links will not be pointed to your website in this layer. In this file you will get posts with backlinks only for the tier 1 urls. This will directly pass the ranking value to tier-one links.

**File 3**- This is a free bonus file. In this file you will get a detailed backlink analysis report of your TWO competitors. This is a special gift for you.

\*\*\*The number of the links in file 1 and 2 will depend on the package you purchased.

## **Why SAGASEO All-in-One Magical SEO Package is powerful**

- **Strong links**- Tier 1 strength will be the sum of all tier 2 links. By tiering your links this way, you improve the authority, trust and the resulting value of the top tiers.
- **Natural Mix of Dofollow and Nofollow links**
- **Organic and Natural SEO Strategy**
- **Huge Anchor Diversity in Links**- Building links from the same anchor text may rank you fast, but it will ultimately lead to a penalty. In order to really make your backlinks SEO-friendly, you'll need to consider having a strong and diverse set of anchor text in your backlink profile.

\*\*So, We create the backlinks with mixed anchor text that help your website achieve higher rankings.

**Thank you for placing your trust and confidence in our abilities.**

We look forward to working with you.
