EditionGuard is built on the idea that selling eBooks securely online should be both easy and affordable. We exist to help authors and businesses sell more eBooks and retain more of their profit in the process. Our platform is packed with features to help to reach your sales goals.

EditionGuard Direct Fulfillment

With our EditionLink fulfillment option, your eBooks will be accessible directly through a download link that will expire based on your preferences.

EditionMark, our other direct fulfillment option, has the same features along with the addition of a watermark containing the personal information of the purchaser inside your eBooks.

These fulfillment options are easy for you and even easier for your customers, as your eBooks will be directly accessible in their raw forms.
