

# Finally, a smart way to train!

A Smart Training subscription is the competitive edge your office has been looking for, and the cost won't bust the practice budget. In fact, a monthly team member subscription costs less than a trip to Starbucks.

HOW TO BECOME COMPLIANT?

## Smart Training

You probably already know that Smart Training takes training technology to the cutting edge. Now we're taking our delivery process a step further with our new subscription program.

Subscribing offices get all our industry-specific OSHA and compliance training modules. Additionally, subscribing offices enjoy access to unique subscriber-only programs like the new Patient Privacy Omnibus and monthly safety meetings.

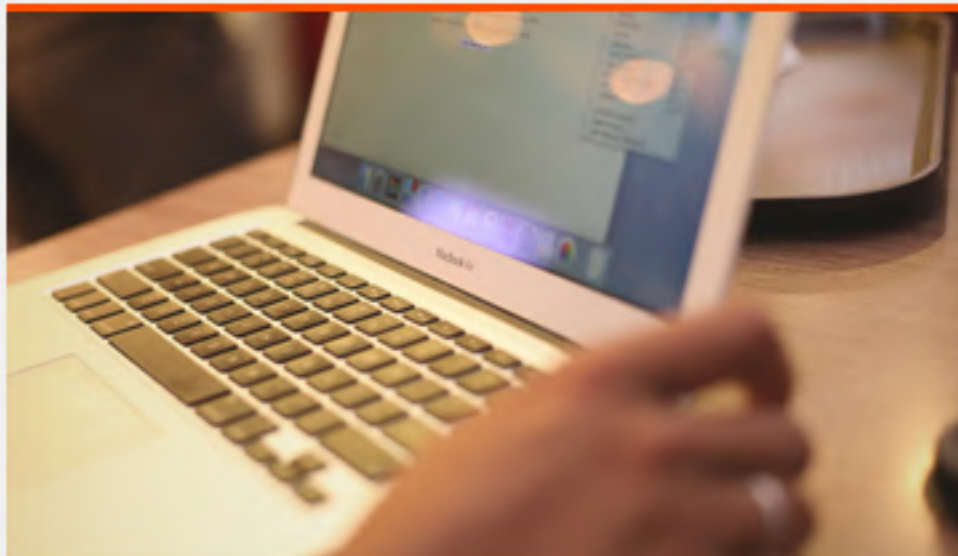

A Smart Training subscription is the competitive edge your office has been looking for, and the cost won't bust the practice budget. In fact, a monthly team member subscription costs less than a trip to Starbucks.

Move your team to a Smart Training subscription today. We'll update you on subscribers-only content and help you get the most from the Smart Training experience.

## Our Learning Management System

Take all the guess work out of it by reading our helpful guides

### Administrator Interface

When you purchase a Smart Training license, you become the training administrator for your team members. Once you've registered your employees in our system, you can track their training progress, print certificates, and even print off quizzes for group training.

#### ABOUT SMART TRAINING

Smart Training's Learning Management System was developed through years of experience ... and the client experience keeps getting better and better.

We began offering computer-based OSHA compliance training more than 15 years ago; now Smart Training offers dozens of different OSHA, HIPAA and DOT training certifications to an ever-widening group of clients nationwide.
